The Ezy-Build Space-Saving Core Tray

West Australian Steel Sales are proud to introduce a new innovation in core storage with the Ezy-Build Space Saving Core Tray.

FEATURES

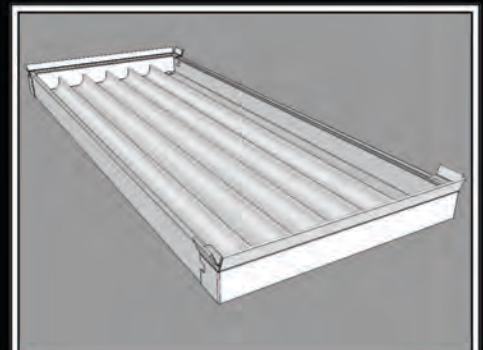

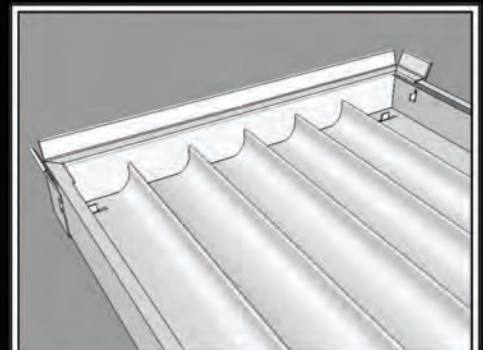

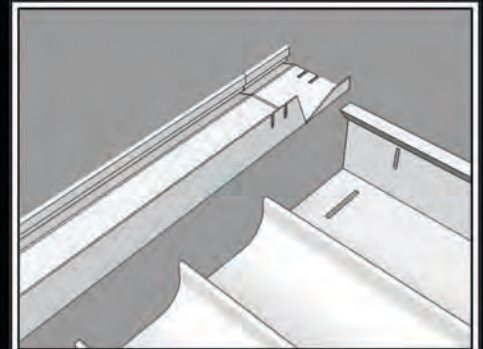

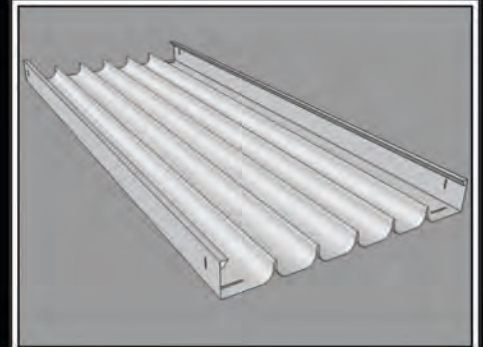

- No power tools or fasteners required to assemble
- Made from high quality zincalume or galvanised steel
- Range of sizes and types available
- Supplied in kit form with assembly instructions included in each carton
- Trays stack easily without crushing sample
- Safety edge on tray sides and end cap

MODELS

- Standard: suitable for storage in racking systems
- Stackable: Self stacking tray type with sturdy support base

BENEFITS

- Ideal for export
- Clever design packs efficiently for transport minimizing wasted space on pallets and in containers
- Easy to assemble on site. Only a pair of pliers and small hammer required to fold over locking tabs.
